Consultancy

Professional advice regarding medical provision and training.

[What makes our medical consultancy services different?](#)

[Asgard Dynamics](#) are so much more than a medical training company. In addition to the educational and medical provision aspects of our business, we can also provide consultancy services to a variety of industries.

In the case of private medical companies, our consultancy services make certain that your organisation has the right clinical governance in place to maintain a high standard of patient care. This includes advice around guidelines, auditing systems, and clear lines of accountability. Our aim is to ensure that your patients receive the best possible care in a safe and nurturing environment.

However, it's not just private medical companies that benefit from our consultancy services. We are a one stop shop for any private company that would like advice surrounding [medical provision](#) or [training](#).

If you'd like to find out more about our medical consultancy services, give us a call on [08009 991054](tel:08009991054) or [send us a message](#) and we'll be in touch with a well-informed response as soon as possible.

Bespoke medical training courses

Do your staff need specific training on a topic that's currently unregulated? We can work with you to understand your processes, establishing exactly what training or other services are needed, and how best we can implement these.

This could potentially involve observing your staff in a normal working environment, or a simulated emergency scenario.

A recent example of our consultancy services used to great effect was a security company that required specific training regarding knife crime. Asgard Dynamics designed a bespoke course to cover all issues surrounding this unregulated topic and delivered it to all security staff in the company.

What's our consultancy process?

Proposal

Following our observations, we'll provide you with a bespoke, comprehensive, and carefully considered proposal regarding the training needs of your staff.

Implementation

You will receive an expertly delivered training package, which will include all training materials and practical exercises, tailored to your specific requirements.

Post delivery

There will be an opportunity for feedback, and results of this will be analysed to allow us to cater to the new needs of your organisation.

Our final report will contain our recommendations for further training and success, as well as detailing the whole process for your records.

What our consultancy services can bring to your organisation

Whatever your medical consultancy needs, we can provide the advice, planning, personnel, and equipment required to deliver training to organisations of all sizes and in a variety of industries.

Here are some of the ideals that we can bring to your business.

Discipline

We maintain high standards of clinical governance in our working environment.

Integrity

We do what is right for your organisation, always.

Hospitality

We believe in building strong relationships with our clients from the first interaction.

Reliability

Careful planning and organisation are key to effective consultancy. We won't ever let you down.

Humbleness

In the unlikely event that we can't offer the consultancy you need, we're humble enough to say so.

Simplicity

We won't baffle you with jargon, and pride ourselves on being straightforward to deal with.

FAQs

Who do Asgard Dynamics provide consultancy services to?

We provide consultancy services to businesses from all industries, to meet a wide range of needs. For example, one week we could be providing a bespoke training course to a security company to help them deal with knife crime, and the next we could be delivering advice to a private medical company regarding improving their auditing systems.

Whatever your medical consultancy needs, and whether you require advice around training or medical provision, give us a call today on [08009 991054](tel:08009991054).

Can you deliver bespoke medical training courses?

Yes, absolutely. If you would like us to run a training course on any topic that's currently unregulated, get in touch to let us know your requirements. We've worked

with companies from a range of industries, delivering bespoke medical training courses to meet a variety of needs.

To find out more, [send us a message](#) and we'll be in touch as soon as possible.

[Can you provide consultancy services to private medical companies?](#)

Yes, we provide consultancy services to private medical companies, working with them to discover the exact training needs of their staff. We can then design and deliver bespoke courses to fill any gaps in knowledge, improving clinical governance and ensuring CQC compliance.

If you would like your private medical company to benefit from our consultancy services, give us a call today on [08009 991054](#) to find out more.

[Message us with your medical consultancy requirements today](#)
