Critical Care Services

Outstanding critical care facilities for events and to support local ambulance services.

What makes our critical care services different

Asgard Dynamics have over two decades of experience in providing intensive support for patients who have life-threatening injuries or illnesses.

We primarily provide our critical care services for events, but we are also currently looking into supporting local ambulance services.

Our team of specially-trained clinicians can work either independently, or as a bolt on to other medical teams providing event first aid.

If a patient attending your event becomes severely unwell, perhaps due to misuse of drugs or alcohol, then a basic first aid provider may be unable to manage them.

Our clinicians are specially trained to manage these patients with competence and professionalism.

Alternatively, if someone should suffer a head injury, heart attack or stroke at your event, we'll be on hand to provide dedicated pre-hospital intensive care.

If you'd like to find out more about our critical care services, don't hesitate to get in touch. You can either give us a call on [08009 991054](tel:08009991054) or send us a message using our [online contact form](#) and we'll be in touch shortly.

Critical care clinicians

We can provide specialist clinicians for high-risk events, including:

- Specialist paramedics
- Advanced paramedics
- Specialist nurses
- ODPs
- Doctors with critical care or prehospital care experience
- Consultant anaesthetists

[Send us a message](#)

Critical care equipment

Our experienced critical care doctors will attend your event with a plethora of vital lifesaving equipment, including:

- Ventilators
- Advanced patient monitors
- RSI medications
- Portable ultrasound
- Lucas CPR Devices

What our critical care services can bring to your event

We have the experience, planning, personnel, and equipment required to provide critical care services to events of all sizes and risk levels.

Here's a little about the values that we can bring to your event.

*Please note that at the time of publication, we are currently applying for CQC licensing.

Discipline

We maintain high standards of clinical readiness in our working environment.

Integrity

We do what is right for the patient, always.
No ifs, no buts.

Hospitality

We believe in building strong relationships with our clients from the first interaction.

Reliability

Careful planning and organisation are key to effective critical care services. We won't ever let you down.

Humbleness

In the unlikely event that we can't offer the critical care services you need, we're humble enough to say so.

Simplicity

We won't baffle you with jargon, and pride ourselves on being straightforward to deal with.

FAQs

How much notice do you need to provide critical care services for an event?

The amount of notice we will need to provide critical care services for your event is determined on a case-by-case basis. This is because the answer to this question depends upon the size and type of event you're organising.

The more notice you can give us, the better, but two to three weeks' notice is usually sufficient.

If you're organising a high-risk event that requires critical care services, don't hesitate to [get in touch](#).

Are critical care services a legal requirement at events?

You have a legal duty of care, as an event organiser, to properly assess your event's first aid requirements, no matter the size.

The [Health and Safety \(First Aid\) Regulations 1981](#) state that you must ensure that all event attendees receive adequate and appropriate medical attention immediately if they become ill or injured whilst on site.

Therefore, if your event is deemed to be high-risk, for example motocross or show jumping, then it's likely you will need critical care services as part of your first aid provision.

Asgard Dynamics have many years of experience in conducting risk assessments for high-risk events. If this is a service you feel you would benefit from, [send us a message](#) today. Following our risk assessment, we will be able to provide you with the ideal level of medical provision for your bespoke requirements, including any critical care services you may need.
