Out of Hours Services

Supporting GPs and local ambulance services with out of hours primary care.

What out of hours primary care services do Asgard Dynamics provide?

Asgard Dynamics offer a range of out of hours services to help treat patients in their own homes, alleviating strain on our colleagues in the NHS.

Many patients either don't need to attend hospital or cannot get there because of transport or mobility issues. However, sometimes these patients still need to be assessed by a medical practitioner – not as a matter of urgency but within a reasonable timeframe.

In these cases, we can triage individuals in their own homes, maintaining continuity of patient care outside of normal operating hours.

Examples of our out of hours service in practice are:

- If an elderly or disabled person has a fall, and does not want to go to hospital, but it is important that they are seen by a clinician in person.
- Palliative care patients who require assessment and treatment to be available 24/7, but either cannot, or do not wish to, attend hospital.
- Dispensation of medications for simple ailments that don't require hospital, but cannot be managed without dealing with a clinician in person.

When you request our out of hours services, we will ask pertinent questions in order to establish the most appropriate clinician to meet the patient's needs. This could be a paramedic, nurse practitioner or doctor.

On arrival at the patient's home, the appointed clinician will conduct a thorough assessment of their needs. They will then provide any necessary treatment and develop a plan of action. For example, it may be determined that the patient needs further assessment at hospital, or that treatment can continue at home.

Asgard Dynamics work hand in glove with ambulance services and GPs across the UK, linking in with these services regularly for continuity of exceptional patient care.

To find out more about our out of hours primary care services, get in touch with our friendly team on [0800 999 1054](tel:08009991054). Alternatively, send us a message using our [online contact form](#) and we'll be in touch as soon as possible.

[Out of hours advanced decision making](#)

Medically complex patients may require clinicians with experience in advanced decision making.

Our personnel have the knowledge and skills to make these difficult decisions.

This out of hours service both alleviates strain on our GP & A&E colleagues and empowers patients to remain at home when it is safe to do so.

[Out of hours dedicated falls service](#)

Our out of hours dedicated falls service has proven invaluable for patients who do not need hospitalisation, but require assessment and treatment at home.

Asgard Dynamics look beyond the preliminary needs of our patients. We pride ourselves on the holistic approach of our falls service, which aims to reduce the risk of any subsequent falls.

[Out of hours ambulance assistance](#)

Asgard Dynamics can assist local ambulance services in offering help to patients who don't need to attend hospital, but still need to see a clinician promptly.

This is frequently the case with palliative care patients, or those who have suffered a fall in their own home.

[Out of hours medication dispensation](#)

Our out of hours services also includes dispensing medications.

This service is ideal for patients who are suffering with simple ailments, where hospitalisation is unnecessary, but a clinician needs to be involved before medication can be prescribed.

No ifs, no buts.

Hospitality

We believe in building strong relationships with our clients from the first interaction.

Reliability

Careful planning and organisation are key to effective out of hours medical provision. We won't ever let you down.

Humbleness

In the unlikely event that we can't offer the out of hours medical provision you need, we're humble enough to say so.

Simplicity

We won't baffle you with jargon, and pride ourselves on being straightforward to deal with.

FAQs

How much notice do you require to provide out of hours services?

Our out of hours primary care services are available either on an ad hoc basis or can be organised well in advance. However, we require at least 12 hours' notice to assign a clinician to a patient.

If you feel you would benefit from our out of hours primary care services, don't hesitate to [get in touch](#) today.

Can your clinicians dispense medication out of hours?

Yes, absolutely. One of the main benefits of our out of hours primary care services is that patients with minor ailments, who do not need to attend hospital, can be prescribed medication 24/7.

If you would like to find out more about our out of hours medication dispensation service, give us a call today on [0800 999 1054](tel:08009991054).

[What level of clinicians can you provide out of normal working hours?](#)

Asgard Dynamics are able to provide experienced and highly skilled paramedics, nurses and doctors to visit your patients in their own homes. We aim to avoid the need for hospitalisation, alleviating the ever-growing strain on our colleagues in the NHS.

We work closely with GPs, A&E and local ambulance services, linking in regularly with them to ensure continuity of outstanding patient care.
