## Primary Care Services

Out of hours and event medical provision.

### Out of hours primary care services

Asgard Dynamics offer [out of hours primary care services](#) to hospitals and walk in centres, in addition to caring for patients in their own homes. Our clinicians actively seek to alleviate the clinical workloads of our GP and A&E colleagues.

We can provide these services either independently or to assist other agencies supplying out of hours medical cover. Either way, we will provide your organisation with qualified, experienced medical practitioners who will fit in seamlessly with the rest of your team, getting on with the tasks at hand without delay.

The services we provide include:

- Blood testing
- Ultrasound
- Wound closure
- Advanced assessment techniques

### [Dedicated falls service](#)

Our primary care services also include dedicated provision for patients who have suffered injuries as a result of a fall.

This service is ideal for those who do not need conveying to hospital but require assessment and intervention at home.

Asgard Dynamics look beyond the initial needs of the patient, priding ourselves on taking a holistic approach to reduce the risk of subsequent falls.

### [Ambulance service assistance](#)

We can also assist ambulance services in providing help for patients who don't require hospital but are in need of additional support, as is often the case with palliative care.

Our services also include dispensing medications for simple ailments that do not require hospitalisation, but cannot be managed without seeing a clinician in person.

[Get in touch](#)

### [Advanced decision making](#)

Asgard Dynamics' ability to undertake advanced decision making regarding medically complex patients can help to alleviate strain on both GPs and A&E.

Our out of hours services also empower patients to remain at home when it is safe to do so.

For more information on how we can help your Trust to operate more efficiently, give us a call.

### [Primary care services for events](#)

Asgard Dynamics also offer [primary care services for events](#) of all sizes. As with the out of hours services, we can offer this either independently, or to bolster the capacity of any private company delivering event medical provision.

Whatever event you're planning, from a small school fete to a large music festival, we will ensure that your attendees receive the right level of medical care for their requirements.

### [The ultimate in pre-hospital care](#)

All patients will receive an elite level of pre-hospital care, whether they simply require a graze cleaning up, wound closure, emergency dental treatment or even anaesthesia.

All our events have senior doctors present and the latest medical technology including:

- Satellite phones
- High-tech medical equipment
- Secure communications to undertake telemedicine consults
- Custom utility vehicles
- A pharmacy on par with (and often surpassing) local ambulance services.

### [Avoid hospitalisation](#)

Our aim is to avoid hospitalisation wherever possible, and our personnel have the experience needed to deal confidently with any clinical situation.

We can provide clinicians of all levels, from nurses and paramedics through to ODPs and specialists.

[Get in touch](#)

### [Remote telephone triage](#)

We offer remote telephone triage in order to develop a clinical picture of the patient before meeting them.

This can often be invaluable in circumstances where the patient is not in close proximity to a medical team.

[Give us a call](#)

Whether you're an event organiser or a private company providing medical cover and need additional or specialist clinicians to bolster your team, don't hesitate to [get in touch](#).

### [Message us with your requirements for primary care services today](#)

Feel free to get in touch with us with any questions about our primary care services.
